

Competitor Comparison

Why should I choose CA Traffic Tickets over a competitor?

After several years of studying the traffic ticket fighting industry, we noticed the strengths of some companies but also some glaring weaknesses in the approach of those same companies in how they were fighting traffic tickets. Companies that fight traffic tickets can be boiled down to two types: those with lawyers and document only companies without lawyers. Our strategy is to combine the best of all approaches into one company that can handle all needs.
